# GENERAL INFORMATION

## BLEEDS

Full bleeds are available on most labels at no additional cost. Setting up a square corner butt cut label with a bleed is not suggested. We may be able to set up a square corner label with a bleed for an additional charge, please ask your label representative for more details.

## COLOR MATCH

Custom color matches are available for an additional charge. Please specify the PANTONE number from a PANTONE color book. We can also match a current sample or printed piece. Custom color matches may be within one shade lighter or darker of the specified color.

Color Match: \$40.00\*

Metallic Ink Color Match: \$50.00\*

Fluorescent Ink Color Match: \$50.00\*

## ROLLS

Labels are supplied on rolls unless otherwise indicated. Standard roll sizes are 500 or 1000 labels per roll and on a 3" core. Labels may be finished into smaller rolls for an additional charge. Please see your label representative for more details. Dispenser boxes are available- ; for labels up to 1 1/4" the cost is \$.35/ box, for labels up to 2 1/4" the cost is \$.50/box.

## SINGLES

Most labels are available individually cut into singles. Single labels are stacked and shrink wrapped into packs of 250.

Singles Charge: \$30.00\*

## PERFORATION

Most die cut labels can be supplied with a perforation in between each label.

Perforation Charge: \$30.00\*

## LAMINATION

Lamination is a clear poly film that is applied over the printed label. Lamination protects the label against handling, moisture, some chemicals and abrasion. Lamination will not prevent the ink from fading. Lamination is charged as an additional ink color.

## COMBINATION ORDERS

Different orders can be combined together to obtain quantity pricing. Combined labels must be the same size and the order must be placed at the same time. Change charges apply:

Color Change(wash up): \$15.00\*

Copy Change(spot color): \$15.00\*

Stock Change: \$15.00\*

## PROOFS

Proofs are available as a .pdf via email or black and white copy via fax. Production turnaround time lines do not begin until proof is approved. A signed proof is required for all jobs requiring changes, typesetting and for all 4-color process orders. A \$15.00\* proof charge may apply. Please see your label representative for more details.

## ARTWORK

Either submit your art or we can typeset up to 10 lines for free. There is no charge for minor touch ups, enlarging/ reducing or reproducing your camera or press ready art. Please see page 23 for more information regarding artwork specifications. Extensive artwork will be billed at \$30.00\* per 15 minutes of work. Most barcodes can be created and tested for no charge.

## PRINTING PLATES

There is no charge for printing plates on most orders. However, some larger size labels or complex printing jobs may require a plate charge. You will be notified before production if a plate charge is necessary.

## OVER-RUNS AND UNDER-RUNS

We do our very best to ship each job exactly as ordered, however we reserve the right by industry standards to over-run or under-run orders by 10%. This will constitute a complete order. If exact quantities are critical, please ask your label representative. Additional charges may apply.

## CHANGES OR CANCELLATIONS

Any change in quantity, copy, color or stock may be made depending upon the stage of the order. These changes may require new pricing, or a charge for work incurred. Cancelled orders will be subject to all charges for materials, artwork, and services incurred at the time of cancellation.

# Square Cut Labels

AVAILABLE IN ALMOST ANY SIZE!

## SIZE

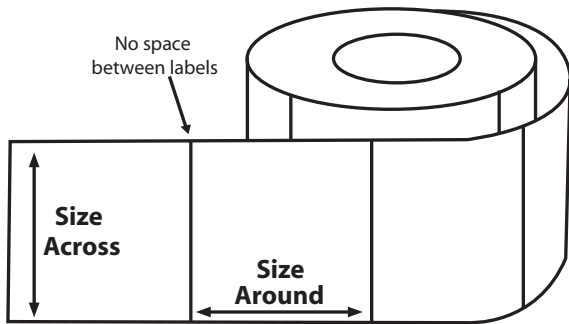

All square cut labels are priced by the square inch. To determine your price, multiply the width of the project label by the length and locate that figure in the chart below. For example, a 2" x 4" square cut label would be 8 square inches.

## LABEL STOCK

Choose from any of our Standard or Premium label stocks on page 2.

## INK COLOR

Choose from our 12 standard ink colors on page 2. Custom color matches and PMS colors available for an additional charge. Full bleeds are not available on square cut labels.

Multiply size across X size around to determine square inches.

# Durable Labels

## LABEL STOCK

Our Durable labels are printed on either White Polypropylene or Clear Polypropylene. Durable labels are also laminated to provide extra durability.

## INK COLOR

Choose from our 12 standard colors on page 2. Custom color matches and PMS colors are available for an additional charge. Full bleeds are available at no additional cost on all rectangles, circles and ovals. Full bleeds are not recommended for Square Cut Labels

## SIZE

Choose any size and shape from any of the pricing grids on page 14 or 15. We have listed just a few of our most common sizes below, for pricing on a size not shown below, please ask a sales associate.

## COUPON LABELS

Coupon labels are a great way to add an Instant Redeemable Coupon (IRC) or rebate to a product without the need for special packaging. The coupon labels is constructed of two layers. When the coupon portion is removed, the bottom layer remains affixed to the packaging while the coupon portion is removed without any remaining adhesive.

COUPON LABELS

## SELF-LAMINATING LABELS

Self laminating labels allow a user to write or type on the label, then remove the remaining liner and complete the lamination over the entire label. Self laminating labels are great for calibration labels, asset tags, warehouse tags or anywhere else there is a need for a durable label that needs to be written on. Self laminating labels are available in either Matte Litho paper stock or Matte Polypropylene for added durability. Our most popular sizes are listed below.

SELF- LAMINATING LABELS

## TAMPER EVIDENT LABELS

We offer two types of Tamper Evident Labels: Void labels and destructible vinyl labels. Void labels will leave a "VOID" pattern on the surface and the label will not be able to be reused. The destructible vinyl label will not be able to be removed in one piece, but rather several very small pieces making it impossible to remove and reuse the label. Tamper Evident labels are a great choice for asset labels, warranty labels or any other application where tamper detection is desired.

# Label Dispensers

AP-30

## APPLICATOR GUNS

Our durable and lightweight line of applicators are cost effective and easy to use with any type of die cut labels. This easy to use hand label applicator automatically detects the edge of the label (using the exclusive label edge detector, Mecha-Sensor) resulting in perfect alignment with accurate dispensing. Available in three sizes:

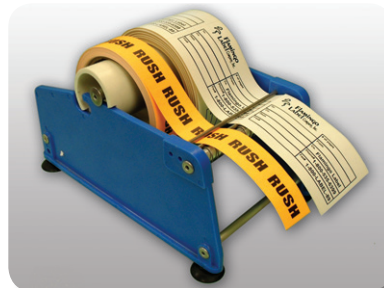

Item #	Max. Label Width	Max Label Repeat	Max. Roll Size
AP-30	1 1/8"	2 1/2"	3 1/2"
AP-60	2 1/4"	2 1/2"	3 1/2"
AP-100	3 7/8"	2 1/2"	3 1/2"

## LABEL DISPENSERS

Our manual label dispensers are made of heavy-duty durable plastic. These convenient dispensers are easy to load and use. Our label dispensers are available in five sizes (2", 4", 6", 8", 12"):

LD-02  
2" Label Width Capacity

LD-04  
4" Label Width Capacity

LD-06  
6" Label Width Capacity

## DISPENSER BOXES

Cardboard dispenser boxes are an inexpensive dispensing solution for roll labels. Easily and neatly store labels in a dispenser box on a shelf or in a drawer.

Two standard sizes are available- Small(1" maximum label width) and Large(2 1/4" maximum label width).

Dispensa- Matic U-45

## AUTOMATIC LABEL DISPENSERS

Call today for details on our wide variety of automatic label dispensers.

# About Label Stock

## COMMON LABEL STOCKS

**WHITE OR YELLOW GLOSS:** Very lustrous finish, ideal for product identification. (Not recommended for writing, typing or computer application).

**WHITE MATTE:** Excellent custom finish look. Coated, but with a flat surface. This material can be hand written on, or used for product identification. (Not recommended for typing).

**WHITE EDP(SMUDGEPROOF):** Our uncoated material is very porous; excellent in high speed printing applications where drying time is critical. (Excellent in data processing, typewriter, and wet ink application).

**FLUORESCENT:** Very attractive material with a matte coated finish. Our stock colors include red, orange, chartreuse, pink and green.

**FOIL:** Our foil is laminated to paper and has a metallic appearance. Available in bright and dull gold and silver. (Not recommended for writing application)

**THERMAL TRANSFER:** Specially coated paper for use in a thermal transfer printer. Thermal transfer printing works by transferring a heat activated ink from a ribbon to the label substrate.

**DIRECT THERMAL:** Specially treated paper for use in a direct thermal printer. Direct thermal printing works by small computer controlled print heads that heat the surface of the label, causing the heated areas to turn black.

**LASER/ INKJET:** Our Laser and Ink Jet paper is specially formulated for use in today's laser and inkjet printers. Available in gloss, matte and an uncoated finish. It is important to determine whether an ink jet or laser printer will be used, as each is specifically formulated for that specific printing method.

**CLEAR:** Our clear label stock is 2 mil polypropylene.

**VINYL:** Our white vinyl is very durable and weather resistant. Vinyl is the right choice whenever the label will be exposed to the outdoors or any other harsh environment. Lamination is suggested with vinyl labels.

**POLYESTER:** Polyester is our most durable label stock. Our polyester label stock is resistant to most oils, solvents and moisture. Available in white, bright silver, imprintable silver(dull) and brushed silver. Lamination is required for durability.

**TAG:** Tag stock is a tag material without adhesive. Our tag stock is available in gloss, matte, thermal transfer and manila.

## ADHESIVES:

**PERMANENT:** Our general purpose permanent adhesive is supplied on all labels unless otherwise specified. Permanent adhesive will have a strong adhesion to the surface. Typically, labels with permanent adhesive cannot be removed without damaging the label. Permanent adhesive is right choice in most applications, unless specific needs such as removability are required.

**REMOVABLE:** Our general purpose removable adhesive will allow the label to be removed from any coated surface without label destruction. Over time, the label may become permanent.

**ULTRA-REMOVABLE:** Our ultra removable adhesive allows the labels to remove easily from the surface. Often, the label can be removed and reapplied somewhere else.

**ALL TEMPERATURE(FREEZER):** Our all temperature adhesive is a permanent adhesive suitable for use in a wide range of temperatures. The labels can be applied in cold environments such as a freezer(to -20 F.). The service temperature of the labels is between -65 F. to 200 F.

**OPAQUE(BLOCKOUT):** Used in applications where you need to cover up incorrect information or block out an area where the label will be applied. This adhesive is dark gray in color and may affect ink color.

## LABEL PROTECTION:

**LAMINATION:** Lamination is a clear poly film that is applied over the printed label. Lamination protects the label against handling, moisture, some chemicals and abrasion. Lamination will not prevent the ink from fading.

**UV VARNISH:** UV Varnish is a protecting coating applied to a printed labels and then cured under a system of ultra violet lights. This creates a hard, semi gloss protective coating. UV Varnish will not prevent ink from fading.

LABEL STOCK SAMPLES AVAILABLE UPON REQUEST

All information, recommendations for use, product designations and descriptive materials regarding pressure sensitive label products is believed to be reliable, but the furnishing of such information, recommendations for use, product designations and descriptive material, is for informational purposes only and does not constitute a warranty of any kind. Because of the variety of possible applications of pressure sensitive label products and the continuing development of new applications, ALL PRESSURE SENSITIVE LABELS ARE SOLD WITH THE UNDERSTANDING THAT EACH PURCHASER WILL INDEPENDENTLY DETERMINE THE SUITABILITY OF ANY PRODUCT FOR THE PURCHASER'S INTENDED APPLICATION

# All About Ink

## INK SELECTION

**STANDARD INK COLORS:** 12 standard ink colors are available at no extra charge. The 12 standard ink colors are shown below.

**METALLIC INKS:** Metallic inks are available for an additional charge.

**CUSTOM COLOR MATCHES:** Custom color matches are available for an additional charge. We can match a PANTONE color(PMS) or we can match an existing piece of printed material you may have.

**4 COLOR PROCESS:** Four Color Process printing uses the 4 process colors (CMYK- Cyan, Magenta, Yellow and Black) to print in full color.

**SPECIALTY INKS:** Many specialty inks are available including UV ink, fluorescent ink and scratch off ink.

## STOCKS AND INK SELECTION

The stock selection will have an impact on the ink color. The same ink will appear different on gloss as it will on uncoated stock. Uncoated absorb more ink and tend to appear darker. On gloss stock, the ink will transfer to the surface without absorbing providing a sharper more brilliant appearance. Color of the stock or background tint color also needs to be considered when selecting ink. On Fluorescent stock, most colors will appear much different than they would on a white surface. Therefore, usually black ink is recommended for Fluorescent labels. Ink printed on clear stock will appear less opaque and translucent. Backing each color up with white ink is suggested for anything printed on clear stock.

## PANTONE® Matching System(PMS)

The PANTONE MATCHING SYSTEM is the definitive international reference for selecting, specifying, matching and controlling ink colors. PMS books come printed in both uncoated and coated stocks. Be sure to specify the stock and use the corresponding book when selecting the PMS color.

# Finishing

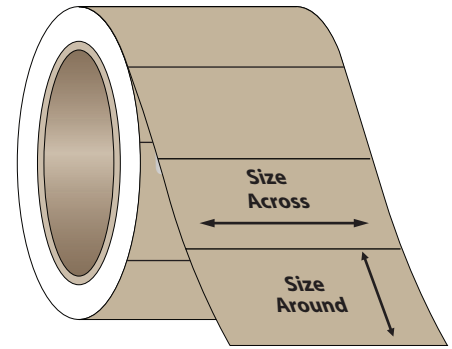

There are three basic ways labels can be finished: on rolls, singled into sheets, or fan- folded.

## Rolls:

Labels are finished onto rolls unless otherwise specified. Our standard roll will contain 500 or 1000 labels (depending on size of label) and will be on a 3" core. Other roll quantities and core sizes are available- please specify when ordering.

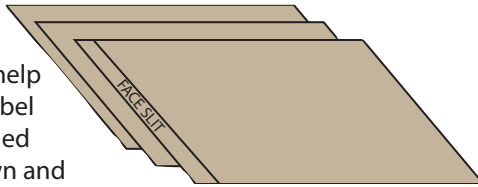

DIE-CUT LABELS

SQUARE-CUT LABELS

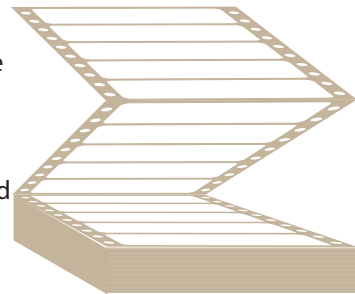

## Singles:

Singled labels are individually cut into sheets. The labels are then stacked and shrink wrapped or bulk packed. Singled labels can be supplied with a back score or face slit to help easily remove the label from the liner. Singled labels are also known as Crack and Peel labels.

## Fan-folded:

Fan Folded labels are perforated die cut labels folded to your specification. Fan folded labels are supplied in stacks.

## REWIND DIRECTION

The rewind direction is very important if the labels are being machine applied or if they are being typed on or printed through a secondary printing process such as a thermal printer. If the labels are to be applied by hand, the rewind direction is not important.

# Art Specifications

## ACCEPTED MEDIA

- CD/ DVD •USB Flash Drive •Zip disk •Floppy disk •Email

## ACCEPTED GRAPHIC APPLICATIONS

- Adobe Illustrator(.ai, .eps)
- Adobe Photoshop(.psd, .tif, .tiff, .bmp)
- Adobe Indesign(.indd)
- Adobe Acrobat(.pdf)

## ELECTRONIC ART INFORMATION

- Include all linked or placed images and original files
- Convert all text to outlines or paths. Otherwise please provide appropriate font files
- Create your artwork the exact size of the label
- Include crop marks or a die line to show positioning of copy
- Extend any bleeds 1/8" past the die line
- Text should be no smaller than 5 pt. for positive copy
- Text should be no smaller than 7 pt. for reversed copy
- Vector files are preferred over raster files

## OTHER ARTWORK FORMATS

If you do not have an accepted electronic file, we may be able to create the file for you from whatever media you may have. Artwork charges may apply depending on the amount of work needed to create the file. Please ask for pricing upon order submission.

## FREE ART AND GRAPHIC SERVICES

- Typesetting up to 10 lines of copy
- Minor retouching of your electronic art
- Enlarging or Reducing your art
- Adding bleeds or reverses
- Creating curved type
- UPC and other bar code creation

## FOUR COLOR PROCESS ARTWORK

Please submit all artwork in CMYK mode in the original format in which it was created. PDF files cannot be used unless accompanied by all supporting files.

## PROOFS

PDF or black and white fax proofs are available upon request. Anytime a change is made to artwork submitted by a customer, a proof is required. Press proofs are available for an additional cost, please call for an estimate.
